Dean (Industry Relations)

INDUSTRIAL VISITS:

1) Visit to Revive Mahape:

- On 19th December, group of 41 students of FE EXTC visited Revive, located in Mahape, an e-waste management company.
- The trip was organised by the IR Committee along with FETS Committee.
- Prof Kaisar Katchi from the A.S.H. Dept accompanied the students.
- Gaurav Gaikwad, TE EXTC was handling the logistics of the trip.
- The students also visited Adlabs Imagica on the second day of the trip.
- According to the students the IV was very informative and they look towards these incursions in the future from the college.

2) Visit to ALL INDIA TRANSMITTERS, Malad:

- An Industrial visit was arranged at ALL INDIA TRANSMITTERS, Malad on 21st February 2018 exclusively for the second year EXTC students.
- The sole intention of this visit was to make the students understand the practicality of Modulation and Transmission of Radio Frequencies which is an integral part of Second Year curriculum. The IV also aimed to develop more interest amongst the students about this subject.
- Prof Aayesha Hakim and Prof Pallavi Mallame accompanied the students on this visit.

- Right from the entrance, one can find old sets of transmitters, receivers and radars dispersed in free space. The transmitting towers and antennas can also be seen at a distance.
- This visit was primarily divided in three sections where their officials explained each of them in detail.
- One of the few active radio transmitters in Mumbai, this place certainly has a lot to offer to the curious.
